

## **CLH Fleet Enhancement**

### **ORGANIZATION PROFILE**

Community Living Hamilton (CLH) is a busy and vibrant organization that supports 1,600 adults and children with diverse abilities to thrive in the community. We are the region's largest service provider for individuals with developmental disabilities such as Down Syndrome and Autism. We are dedicated to helping them achieve their full potential, be included in our community, and, ultimately, build great lives.

### **Purchasing Summary**

CLH is seeking invitational submissions which will support the acquisition of four – five (4-5) additional vehicles to enhance our fleet for the transport of clients throughout the Greater Hamilton Area. Ideally these vehicles will be new or either of one to two years old with low mileage, some manufacturer's warranty and the ability of an extended warranty for purchase. We are interested in reviewing SUV/Sedan options as well as the accessible vans we are requesting. Please provide detailed information on such options as these would be new additions to our current fleet which is all vans.

### **Specifications**
